

Eve Motionblinds Motors

Eve Motionblinds motors have Matter and Thread built-in.

To work without the Motionblinds bridge, Eve Motionblinds require a smart home device that supports both Matter and Thread - called a Thread Border Router.

Does Motionblinds work with Apple Home, Google Home, Amazon Alexa, and SmartThings?

Yes – Motionblinds motors with Matter work with all major smart home platforms that support Matter, including:

- ✓ Apple Home (HomeKit)
- ✓ Google Home
- ✓ Amazon Alexa
- ✓ Samsung SmartThings
- ✓ Home Assistant
- ✓ Plus many more

If your smart home device does not support Matter and Thread, then your Eve Motionblinds would require a Matter bridge to communicate (like the CM-55 Matter Bridge).
