bond

Power your Bond Bridge using the included power supply, and until the light flashing green. Your Bond Bridge is now ready for setup.

Download and install the Bond Home app. Create an account or log in to your existing account. Start the setup flow and follow the app's instructions to add the Bond to your account.

Choose the device you would like to program: ceiling fan, motorized shade or fireplace. Pick up your appliance remote control. Aim it at the Bond Bridge Pro from three feet away. Press and hold any button and wait for the green light.
