INSTALLATION INSTRUCTIONS FOR CUSTOM ROMAN SHADES

Mounting hardware kit includes the following:

Part	Quantity
a. Mounting Brackets	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide)
b. 11/4" Screws	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide)
c. ¾" Screws	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide)
d. Cord Cleat	1 (includes ¾" screws)

Note: 3/4" screws are for Outside Mount installations only – to attach the brackets to the head rail!

Installation:

Wallboard or Plaster: use anchors specifically designed for hollow walls (not included).

Concrete, Stone, Brick: use a masonry drill bit and anchors or screws specifically designed for masonry (not included).

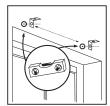

For Outside Mounting

One bracket should be positioned about 2" to 6" from each end of the head rail. For wider shades that require 3 or 4 brackets, these should be spaced evenly between the two outermost brackets. The brackets must not interfere with the cord guides or cord lock or in any way impede the movement of the lift cords – therefore, we recommend that you hold the shade in place and mark the desired bracket locations with a pencil or marker.

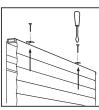

The brackets must be level – use a Spirit Level if necessary to assure proper alignment. Pre-drill the mounting holes using a 5/64" drill bit, then screw the brackets in place.

For standard shades (lift cords concealed behind the face of the shade), place the head rail on top of the brackets – center the shade over the window opening – then mark the location of each mounting hole on the head rail. Pierce the fabric at the hole locations using the tip of a screw, then pre-drill the mounting holes using a 5/64" drill bit. Attach the shade to the brackets using the 3/4" screws provided.

For Cords-Forward shades, the screws will be attached to the top of the head rail – hold the shade against the inner top of the brackets, and then mark and drill the screw holes as described above; and drive the screws into the top of the head rail.

Standard

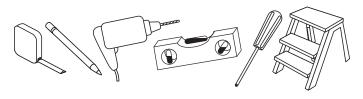

Cords-Forward

For Inside Mounting:

Mounting holes are pre-drilled in the Head Rail, so brackets are not required. Align the front of the shade with the front edge of the window opening (or position as desired), making sure that the shade is centered in the window opening. **Hold** the shade cloth up and over the head rail, and then pre-drill

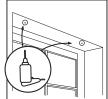

Tools Required:

Pencil, tape measure, level, screw driver, step stool, drill.

the mounting holes using a $\frac{5}{4}$ drill bit – screw the shade in place using the $\frac{11}{4}$ screws. A second set of hands makes this job much easier, so get a helper if possible.

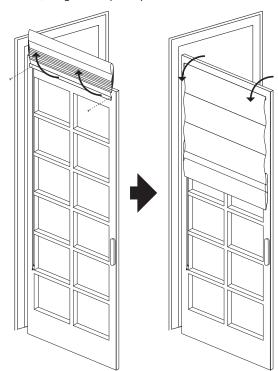

For Outside Mounting with Upended Head Rail

Mounting holes are pre-drilled in the Head Rail, so brackets are not required. Position the shade as desired over the window opening; making sure that it is level - use a Spirit Level if necessary to assure proper alignment. Hold the shade cloth up and over the head rail, and then pre-drill the mounting holes using a 5/64" drill bit - screw the shade in place using the 11/4" screws. A second set of hands makes this job much easier, so get a helper if possible.

Cord Cleat

Attach the Cord Cleat to the wall or window frame using the screws provided. Position the cleat high enough that it is beyond the reach of small children.

Whenever the shade is raised or partially raised, the lift cord should be wrapped around the secured Cord Cleat (see illustration).

How to Operate

To raise or lower the shade, pull the lift cord slightly to release the cord lock. Adjust the shade to the desired height, then move the lift cords slightly toward the outside of the shade to lock in place.

Care Instructions

The packaging and shipping of soft treatments frequently results in minor wrinkling of the fabrics used. There are different characteristics and handling needs for the variety of fabrics offered in this program. First, allow all items to hang for a few days so wrinkles relax and begin to fall out.

For silk fabrics: steam the fabric to remove stubborn wrinkles -Natural irregularities give the fabric its unique and desired character, the appearance of slubs, nubs, loops and barre ridges are universally accepted as normal and should not be considered defects. Please note that a good quality steamer is needed so water spots won't form from water spitting out from the steaming device.

For Rayon/Poly blends: If necessary, steam rayon/poly to remove stubborn wrinkles.

For 100% Polyester: steam polyester or gently iron on a low heat setting to remove stubborn wrinkles. 100% Polyester fabrics release wrinkles easily. Steam or iron on the Polyester / Synthetic Fabrics setting (Low), but be aware that Polyester will melt if the iron is too hot.

Cotton/Poly blends: Gently iron on a Blended Fabric (Medium) setting to remove stubborn wrinkles.

100% Cotton and 100% Linen: gently iron on a Cotton (High) setting to remove stubborn wrinkles.

General Cleaning Guidance: Dry Cleaning is the best method to clean soiled soft window treatments. However, on 100% Polyester, Cotton/Poly blends and 100% Cotton or 100% Linen you may spot clean with warm soapy water using mild detergent and a clean sponge; Air-dry and then steam or iron as guided above.

Window Blind Cord Can STRANGLE Your Child

- Children can climb furniture to reach cords.
- Move crib and furniture away.
- Keep all cords out of children's reach.
- Attach tension device to wall or floor.
- Fasteners provided with tension device may not be appropriate for all amounting surfaces.
- Use appropriate anchors for the mounting surface conditions.

LIMITED LIFETIME WARRANTY

The enclosed product is warranted to the original residential retail purchaser as long as the product remains in the original window.

Covered

Lifetime: Entire product against manufacturing defects (i.e. a flaw in the product design, materials, or workmanship that causes the product to no longer function.

3 Years: Cords, including internal cords such as those found in cordless blinds or shades.

5 Years: All fabric

Not Covered:

Normal Wear and Tear

Any product that fails due to: • abuse • exposure to salt air • improper installation • accident • extraordinary use • improper operation • alterations • improper cleaning • misapplication • damage from pests/insects/pets • improper handling • misuse

Costs associated with: • product removal • transportation to and from the retailer • brand label removal • product re-measure • incidental or consequential damages • product reinstallation • shipping

In the event there are multiple blinds/shades in the same room, only the defective blind/shade will be replaced.

To Report Shipping Damage: If damage occurred during shipping, call place of purchase and report within 7 calendar days or else you may be denied credit for your damaged product.

To Obtain Service: If you suspect this product has a manufacturing defect in materials or workmanship: 1. Locate the sales receipt 2. Call place of purchase. Any unauthorized returns will not be accepted.

Warranty Remedy: THIS SHALL BE YOUR SOLE REMEDY UNDER THIS LIMITED WARRANTY.

If this product is found to have a manufacturing defect in materials or workmanship, we will (at our discretion) do one of the following:

• repair the product • replace the product • refund the cost of the product

Colors vary from lot to lot and may not exactly match sample swatch or previous purchases.

Discontinued items or color selections will be replaced with the closest equivalent current product.

YOUR RIGHTS UNDER STATE LAW:

This lifetime limited warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you. No agent, representative, dealer, or unauthorized employee has the authority to increase or alter the obligation of this warranty. This lifetime limited warranty supersedes any previous versions.

- 4. Costs associated with:
- Product removal Transportation to and from the retailer Brand label removal Product re-measure
- Product reinstallation
 Shipping
- Incidental or consequential damages

In the event there are multiple blinds/shades in the same room, only the defective blind/shade will be replaced

To Report Shipping Damage:

If damage occurred during shipping, call the place of purchase and report within 7 calendar days, or you may be denied credit for your damaged product.

To Obtain Service:

If you suspect this product has a manufacturing defect in materials or workmanship:

- Locate the sales receipt
- Call place of purchase

Any unauthorized returns will not be accepted.

Warranty Remedy:

This shall be your sole remedy under this limited warranty.

If this product is found to have a manufacturing defect in materials or workmanship, we

will, at our discretion, do one of the following:

- Repair the product
- Replace the product
- Refund the cost of the product

Colors may vary from lot to lot and may not exactly match sample swatches or previous purchases.

Discontinued items or color selections will be replaced with the closest equivalent current product.

Your rights under state law: This lifetime limited warranty gives you specific legal rights, and you may have other rights which vary from state to state. Some states do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you. No agent, representative, dealer or unauthorized employee has the authority to increase or alter the obligation of this warranty. This lifetime limited warranty supersedes any previous versions.

For all questions, please call (800) 264-1190

Hours of operation are 8:00am to 5:00pm CST

Custom Roman Shade with Cord Control

Mounting hardware kit includes the following:

Part	Quantity
Mounting Brackets	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide) 5 (shades 96" to 120" wide)
1-1/4" Screws	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide) 5 (shades 96" to 120" wide)
3/4" Screws for Outside Mount	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide) 5 (shades 96" to 120" wide)
Screws for Tension Device	2 (11/4") Phillips head 1 (1/2") Phillips head per bracket for Inside Mount

Wallboard or Plaster: use anchors specifically designed for hollow walls (not included).

Concrete, Stone, Brick: use a masonry drill bit and anchors or screws specifically designed for masonry (not included).

Tools Required:

Pencil, tape measure, level, screw driver, step stool, drill, utility knife.

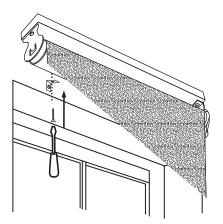

Installation:

For Outside Mounting

One bracket should be positioned about 2" to 6" from each end of the head rail. For wider shades that require 3 or more brackets, these should be spaced evenly between the two outermost brackets. Hold the shade in place and mark the desired bracket locations with a pencil.

The brackets must be level – use a Spirit Level if necessary to assure proper alignment.

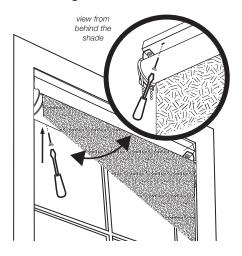

Attach the brackets to the wall or window frame first. Pre-drill the mounting holes using a 5/64" drill bit, and then screw the brackets in place.

Place the head rail against the brackets as illustrated – center the shade over the window opening – then mark the location of each mounting hole on the head rail. Pierce the fabric at the hole locations using the tip of a screw, then pre-drill the mounting holes using a 5%4" drill bit. Attach the shade to the brackets using the 3¼" screws provided.

For Inside Mounting:

Mounting holes are pre-drilled in the Head Rail. Screw the 1-1/4" screws into the head rail until the tips of the screws extend very slightly beyond the top of the head rail. Align the front of the shade with

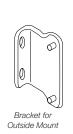

the front edge of the window opening (or position as desired), making sure that the shade is centered in the window opening – then push up on the screws so that the screw heads leave tiny impressions in the top of the window frame. Now, use the impressions as a guide and pre-drill the mounting holes using a 5/64" drill bit – then screw the shade in place.

Attach the Chain Tension Device

The Tension Device must be attached per these instructions in order for your shade to function properly.

While holding the tension device in one hand, pull the plunger away from the bead chain with the other hand. Lift the bead chain out of the bead locking groove and slide the tension device to the bottom of the chain loop.

Remove the twist-tie from the Cord Control Mechanism.

Pull the tension device down until the bead chain is fully tensioned (plunger will be at the top) and then move the tension device up approximately 1/8".

Mark the screw locations on the wall with a pencil.

Inside Mount: If mounting into wood, predrill screw holes and then install the tension device using the 11/4" Phillips head screws provided.

If not securing into wood, use appropriate anchors for the substrate and follow anchor manufacturer's instructions.

Outside Mount: Align the mounting bracket screw holes with the pencil marks.

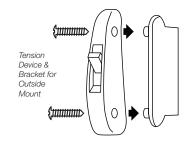

If mounting into wood, predrill screw holes and then install the mounting bracket using

the 11/4" Phillips head screws provided.

If not securing into wood, use appropriate anchors for the substrate and follow manufacturer's instructions.

Press the tension device onto the mounting bracket posts. Carefully install the "Phillips head screws provided, through the tension device into the mounting bracket using a Phillips head screwdriver.

DO NOT OVER-THIGHTEN!

How to Operate Cord Control Shades

Pulling gently on the cord in one direction raises the shade; pulling it in the other direction lowers it.

General Cleaning Guidance:

- Dry Cleaning is the best method to clean soiled soft window treatments.
- However, on 100% Polyester, Cotton/ Poly blends and 100% Cotton or 100% Linen you may: Spot clean with warm soapy water using mild detergent and a clean sponge. Air-dry and then steam or iron.

Window Blind Cord Can **STRANGLE** Your Child

- Children can climb furniture to reach cords.
- Move crib and furniture away.
- Keep all cords out of children's reach.
- Attach tension device to wall or floor.
- Fasteners provided with tension device may not be appropriate for all amounting surfaces.
- Use appropriate anchors for the mounting surface conditions.

LIMITED LIFETIME WARRANTY

The enclosed product is warranted to the original residential retail purchaser as long as the product remains in the original window.

Covered

<u>Lifetime:</u> Entire product against manufacturing defects (i.e. a flaw in the product design, materials, or workmanship that causes the product to no longer function.

3 Years: Cords, including internal cords such as those found in cordless blinds or shades.

5 Years: All fabric

Not Covered

- 1. Normal wear and Tear
- 2. Any product that fails due to:
- Abuse Alterations Exposure to salt air Improper cleaning
- Improper installation Misapplication Accident
- Damage from pests/insects/pets Extraordinary use
- Improper handling Improper operation Misuse
- 3. Natural Wood Products that have:
- Loss of color intensity Variations in color, grain or texture
- Warping of wood slats in high humidity areas

Custom Cordless Roman Shade

owner's handbook

Cords and bead chains can loop around a child's neck and strangle.

- Always keep cords and bead chains out of children's reach.
- Move furniture away from cords and bead chains. Children can climb furniture to get to cords.
- Do not tie cords together. Make sure cords do not twist together and create a loop.

IMPORTANT INFORMATION ABOUT YOUR ROMAN SHADE

This product is designed to make your shade safer for children and pets. However, this shade is substantially different than the traditional shades that you might be accustomed to.

This shade has a double cording system on the back of the shade to help minimize the possibility of a child or pet becoming entangled in the cords.

See the operating instructions toward the back of this handbook for additional information about the function of your shade.

INSTALLATION INSTRUCTIONS

Step 1. Check Package Contents Missing part? Call 1-800-264-1190

Mounting hardware kit includes the following:

Part	Quantity
Mounting Bracket	2 (for shades 24" to 36" wide)
	3 (for shades 361/8" to 54" wide)
	4 (for shades 541/8" to 84" wide)
11//8" Screws	2 per bracket
Control Handle	2
(attaches to bottom rail)	

Note: one extra screw of each noted size is included for convenience

Step 3. Attach Pleat Stiffeners

If the Pleat Stiffeners are not pre-attached, snap them onto the bottom hem as illustrated, by pressing down firmly on each end of each stiffener. Do not press down in the center of the stiffener as it can break. The bottom pleat must have rigidity in order for the shade to function properly.

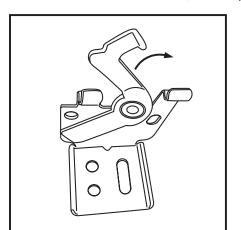

Step 4. Bracket Location and Installation

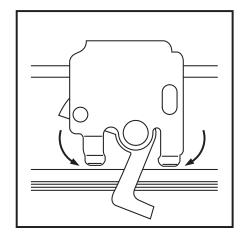

Your shade may be installed either inside the window frame or outside the window frame.

A mounting bracket should be positioned about 1" to 6" from each end of the head rail. For wider shades that require 3 or more brackets, these should be spaced evenly between the two outermost brackets. Always position the brackets such that there is no interference with the cords and mechanisms inside the head rail. The procedure outlined below will assure proper bracket placement.

Note that the shape of head rails and mounting brackets varies by style of shade.

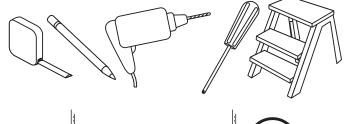

For style 'A' [see illustration]: To attach the brackets the locking arm should be facing out. Then position the bracket so that it engages the inner front and outer back of the head rail, and then push the locking arm inward to lock it in place.

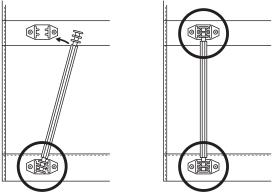

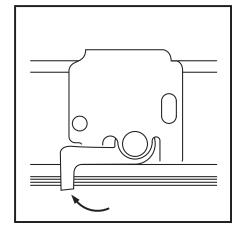

Step 2. Tools Required Screwdriver, tape measure, pencil, drill, step ladder. Note: use #6 plastic anchors for dry well or plaster mounting (no

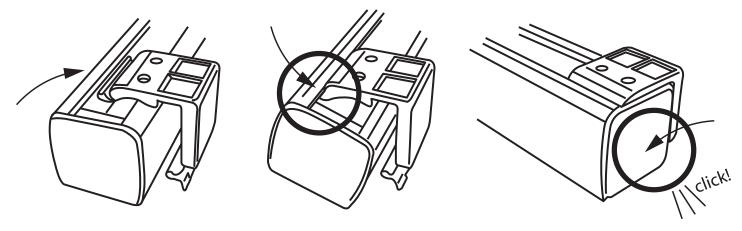

Note: use #6 plastic anchors for dry wall or plaster mounting (not included)
Drill Bits: for screws, use a 3/32" drill bit - for wall anchors, use 1/4" drill bit.

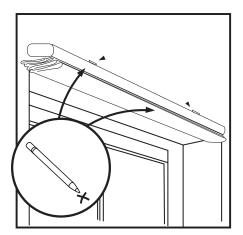

For style 'B' [see illustration below]: Lift the Head Rail into position such that the front edge of the bracket is under the inner front edge of the head rail, and then push the head rail upward until the flexible tab at the bottom of each bracket snaps onto the back of the head rail. Check carefully to assure that each bracket is properly secured.

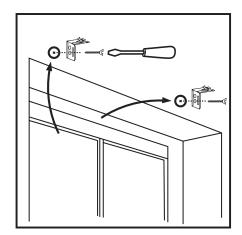

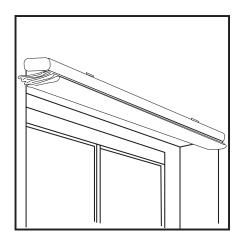

For Outside Mounting:

Attach the brackets to the head rail as described above. Hold the shade level at the height desired and center it over the window opening. Mark the exact location of each bracket with a pencil.

Remove the brackets from the head rail and position the top of each bracket at the marked location and screw each bracket into the wall or window molding using the 11/8" screws, pre-drill the screw holes using a 5/4" drill bit.

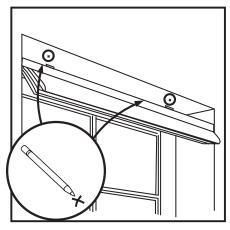

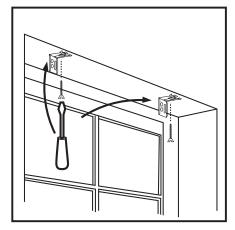

For Inside Mounting:

Clip the brackets onto the head rail as described above. Hold the shade in place and make a pencil mark at the rear of each bracket where it contacts the inside of the window frame.

Remove the brackets from the head rail and align them with the marks. Attach each bracket using the $1\frac{1}{8}$ " screws, pre-drill the screw holes using a $5\frac{1}{8}$ " drill bit.

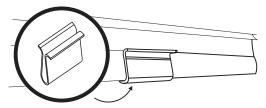

Step 5. Securing the Head Rail

Place the head rail on the brackets as described in Step 4 above, and lock in place.

Check carefully to assure that each bracket is properly secured.

Step 6. Attach Handle / How to Operate

Attach the handles to the bottom of the shade as illustrated.

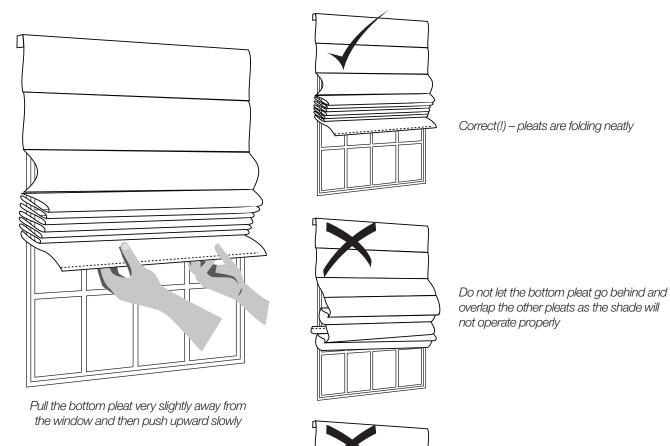

<u>Positioning:</u> Divide the width of the shade by 4, and place a handle that distance from each end of the shade. The handles are designed to minimize contact with the shade fabric.

Lowering the Shade: Grip the handles and slowly pull straight down.

IMPORTANT

Always keep the bottom rail level (i.e. parallel to the top of the shade) when lifting and lowering the shade. If the shade becomes uneven, slowly pull it all the way down and then lift to the desired position. If necessary, reach behind the shade and manually pull the cording slowly out of the head rail until the bottom of the shade is level.

Raising the Shade: SLOW is the functional word in achieving proper operation of your cordless shade. To lift the shade, place your hands on the handles with palms facing up. Pull the bottom pleat very slightly away from the window and then push upward slowly. The pleats should fold like an accordion. If the bottom pleat is pushed straight up, it will tend to go behind and overlap the other pleats which prevents the shade from operating properly. If the bottom pleat is pulled too far it likewise will not function properly. See the video for a demonstration of the recommended lifting technique.

Do not pull the bottom pleat out too far or the shade will not function properly

Use your phone camera to scan code for instructional video or visit: https://www.youtube.com/watch?v=h_N4AeJ-v1E&feature=youtu.be

Cleaning your Shades

To clean the shade fabric, use a feather duster or vacuum lightly using the soft brush attachment.

For 100% Polyester, Cotton/Poly blends and 100% Cotton or 100% Linen fabrics you may: Spot clean with warm soapy water using mild detergent and a clean sponge. Air dry, and then steam or iron.

Ironing

100% Polyester: If necessary, steam polyester or gently iron on a low heat setting to remove stubborn wrinkles. 100% Polyester fabrics release wrinkles easily. Steam or iron on the Polyester /

Synthetic Fabrics setting (Low), but be aware that Polyester will melt if the iron is too hot.

Cotton/Poly blends: If necessary, gently iron on a Blended Fabric (Medium) setting to remove stubborn wrinkles.

100% Cotton and 100% Linen: If necessary, gently iron on a Cotton (High) setting to remove stubborn wrinkles.

Replacement Parts

In the event that replacement parts are ever needed, you may call: 1-800-264-1190

Please be sure to provide the following information, if possible:

- The complete model or catalog number of your product
- A description of the product
- A description of the part needed

LIMITED LIFETIME WARRANTY

The enclosed product is warranted to the original residential retail purchaser as long as the product remains in the original window

Covered

Lifetime: Entire product against manufacturing defects (i.e. a flaw in the product design, materials, or workmanship that causes the product to no longer function.

3 Years: Cords, including internal cords such as those found in cordless blinds or shades.

5 Years: All fabric

Not Covered:

Normal Wear and Tear

Any product that fails due to: • abuse • exposure to salt air

- improper installation accident extraordinary use
- improper operation alterations improper cleaning
- misapplication
 damage from pests/insects/pets
- improper handling misuse

Costs associated with: • product removal • transportation to and from the retailer • brand label removal • product re-measure

- incidental or consequential damages product reinstallation
- shipping

In the event there are multiple blinds/shades in the same room, only the defective blind/shade will be replaced.

To Report Shipping Damage: If damage occurred during shipping, call place of purchase and report within 7 calendar days or else you may be denied credit for your damaged product.

To Obtain Service: If you suspect this product has a manufacturing defect in materials or workmanship: 1. Locate the sales receipt 2. Call place of purchase. Any unauthorized returns will not be accepted.

Warranty Remedy: THIS SHALL BE YOUR SOLE REMEDY UNDER THIS LIMITED WARRANTY.

If this product is found to have a manufacturing defect in materials or workmanship, we will (at our discretion) do one of the following:

- repair the product replace the product
- refund the cost of the product

Colors vary from lot to lot and may not exactly match sample swatch or previous purchases.

Discontinued items or color selections will be replaced with the closest equivalent current product.

YOUR RIGHTS UNDER STATE LAW:

This lifetime limited warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you. No agent, representative, dealer, or unauthorized employee has the authority to increase or alter the obligation of this warranty. This lifetime limited warranty supersedes any previous versions.

For all questions, please call (800) 264-1190 Hours of operation are 8:00am to 5:00pm CST

INSTALLATION INSTRUCTIONS

INSTALL THE SHADE BEFORE ATTEMPTING TO OPERATE THE MOTOR.
Also, note that the batteries that power the shade must be charged for 6 hours prior to use.

Installation Kit Includes:

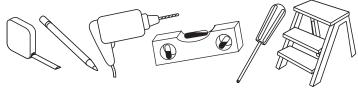

Part	Quantity	
a. Mounting Brackets (Outside Mount Only!)	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide) 5 (shades 96" to 120" wide)	
b. 11/4" Screws	2 (for shades up to 36" wide) 3 (for shades 36" to 48" wide) 4 (for shades 48" to 96" wide) 5 (for shades 96" to 120" wide)	
c. ¾" Screws for Outside Mount	2 (shades up to 36" wide) 3 (shades 36" to 48" wide) 4 (shades 48" to 96" wide) 5 (shades 96" to 120" wide)	
d. Radio Frequency Remote	1	
e. Wall Holder for Remote	1	

Wallboard or Plaster: use anchors specifically designed for hollow walls (not included).

Concrete, Stone, Brick: use a masonry drill bit and anchors or screws specifically designed for masonry (not included).

Tools Required:

Tape measure, pencil, drill, drill bits, level, step stool or ladder.

Note: use a 5%" drill bit to pre-drill the screw holes (for attachment to a wall stud or header board). Use Wall Anchors (not included) for hollow dry wall or plaster mounting.

Installation:

For Outside Mounting

One bracket should be positioned about 2" to 6" from each end of the head rail. For wider shades that require 3 or more brackets, these should be spaced evenly between the two outermost brackets. Hold the shade in place and mark the desired bracket locations with a pencil.

The brackets must be level – use a Spirit Level if necessary to assure proper alignment.

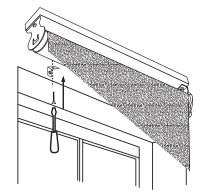

The brackets will be attached to the bottom of the head rail, so attach the brackets to the wall or window frame first. Pre-drill the mounting holes using a $\frac{5}{4}$ drill bit, and then screw the brackets in place.

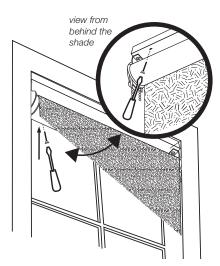

Place the head rail against the brackets as illustrated – center the shade over the window opening – then mark the location of each mounting hole on the head rail. Pierce the fabric at the hole locations using the tip of a screw, then pre-drill the mounting holes using a 5%4" drill bit. Attach the shade to the brackets using the 3/4" screws provided.

For Inside Mounting:

Mounting holes are pre-drilled in the Head Rail. Screw the 1-1/4" screws into the head rail until the tips of the screws extend very slightly beyond the top of the head rail. Align the front of the shade with the front edge of the window opening (or position as desired), making sure that the shade is centered in the window opening – then push up

on the screws so that the screw heads leave tiny impressions in the top of the window frame. Now, use the impressions as a guide and pre-drill the mounting holes using a 5/64" drill bit – then screw the shade in place

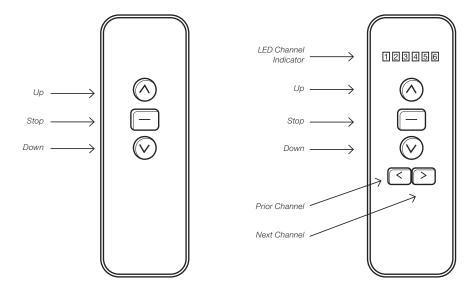

/Motor&Control

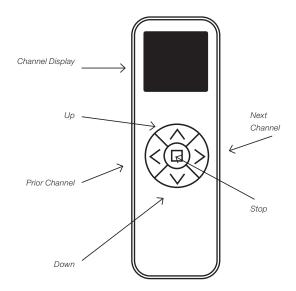

Motor&Controlsfor **Custom**Roman Shades

Remote Transmitters

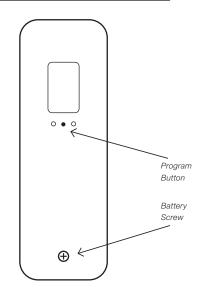

Single Channel Remote Control Transmitter

Six (6) Channel Remote Control Transmitter

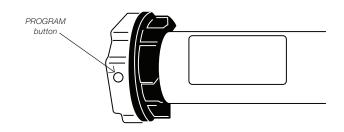

Sixteen (16) Channel Remote Control Transmitter

Back of Remote Control Transmitter

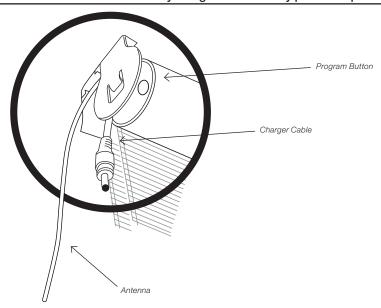

Motor Head

PROGRAMMING AND OPERATION OF RADIO TECHNOLOGY MOTORS

IMPORTANT: The Upper & Lower limit positions (full UP & DOWN positions) have been pre-set at the factory – also, a Channel Number has been assigned to each shade - therefore, it is not necessary to perform Steps 1, 2 & 3 below – however, we recommend that you read these to familiarize yourself with the basics of programming the motor and remote control and to fully understand the function of your motorized shade.

Also, note that the batteries in the motor are fully charged at the factory prior to shipment.

1. . Channel Selection for Each Shade

When you receive your shades the channel number pre-assigned to each shade will be marked on the shade and/or carton. Per the notice above, it is not necessary to perform Steps 1, 2 & 3 as these settings are done at the factory and will require no adjustment under normal circumstances.

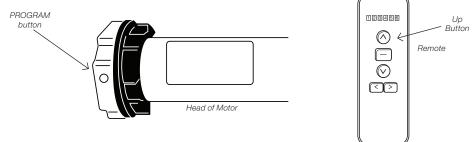

A channel number must be assigned to each motor/shade. The assigned numbers should be sequential starting with #1 (1, 2, 3 etc.).

Press the channel buttons/arrows to select a dedicated channel for each shade prior to mating each shade/motor to the remote controller.

2. Programming/Mating

REMINDER: the motor and remote have been pre-set at the factory – programming information for Steps 1, 2 & 3 is provided as background information only.

Identify the head of the motor housing on the left side of the shade (see drawing) - Press the PROGRAM button until the motor beeps and the shade oscillates (the shade will oscillate - a quick back and forth movement of the shade) Press the UP button on the remote (see drawing) – the shade will oscillate again – the motor and transmitter are now mated.

3. Setting UP and DOWN Limit Positions

NOTE: Upper and lower limit positions have been pre-set at the factory - programming information for Steps 1, 2 & 3 is provided as background information only.

Set the UP position:

Move the shade 6" to 10" below the desired upper limit by pressing the UP or DOWN arrows/buttons on the remote. Press the PROGRAM button on the back of the remote – the motor will oscillate – this puts the motor in program mode. Now move the shade up to the desired UP position and press the program button again – the motor will oscillate and the upper limit is now set.

Motor&Controlsfor CustomRoman Shades

Set the DOWN position:

Move the shade down from the upper limit position to a point 6" to 10" from the bottom, and then press the PROGRAM button on the back of the remote – the motor will oscillate and is once again in program mode. Now move the shade to the desired DOWN position and press the PROGRAM button the motor will oscillate and the lower limit is now set.

NOTE: after all limits are set, see the remote control operating instructions below.

4. Setting Intermediate Positions & Other Settings

Setting INTERMEDIATE positions

Up to (4) intermediate positions can be set.

Move the shade at least 6 inches away from the previously set limits – press the PROGRAM button on the rear of the remote – the motor will oscillate and is now in program mode.

Now move the shade to any desired intermediate STOP position and press the PROGRAM button again – the motor will oscillate and the intermediate STOP position is now set.

Repeat this process to set additional intermediate STOP positions.

When setting a limit, if there is no action within 30 seconds, the motor will automatically exit the limit programming mode.

Limit Position Fine Tuning: move the shade to the limit position that you wish to adjust. Press the program button on the rear of the remote – the motor will oscillate and is now in limit setting mode. Use the UP/DOWN buttons on the remote to establish a new position – press the program button on the rear of the remote – the motor will oscillate and the fine-tune setting is now complete.

Erasing Limits:

Note: the 1st/Upper limit cannot be erased – it can only be eliminated by deleting all memory

Move the shade to the limit position that you wish to erase – press and hold the PROGRAM button on the rear of the remote for approximately 7 seconds – the motor will oscillate twice, and the limit has been erased.

Deleting Memory

To Delete All Memory: Press the program button on the head of the motor 4 times (@ one second intervals), and then press a fifth time and hold the button down (approximately 7 seconds) until the motor oscillates twice. All memory is now erased.

Deleting Memory for a Single Channel: Set the remote transmitter on the channel to be deleted. Press the STOP button for approximately 5 seconds – the motor will oscillate. Now press the program button on the rear of the remote – the motor will oscillate and the single channel is deleted

<u>Using the Remote Control Transmitter</u>

Press the UP/DOWN button once and the shade will move to the next pre-set limit position.

Press the UP/DOWN button twice at the speed of once per second and the shade will move to the UP or DOWN limit position without stopping at any intermediate position.

When the up position has been reached, the UP button becomes non-functional, and when the down position has been reached the DOWN button becomes non-functional.

Controlling Multiple Shades Simultaneously

6 Channel Remote: press the channel selector until all six lights are lit to control up to 6 shades at the same time using the remote control as described above.

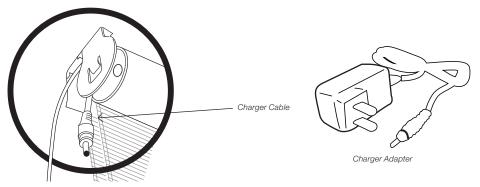

16 Channel Remote: press the channel selector button until "CC" appears in the display window to control up to 16 shades at the same time using the remote control as described above.

Operating the Shade

To raise and lower the shade, use the remote control as described above.

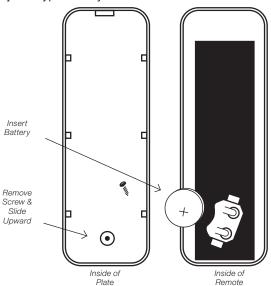

Charging the Batteries

Connect the AC Charger to the Charger Cable attached to the motor head – charge for 8 hours.

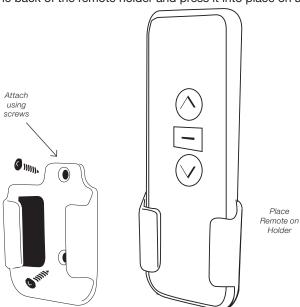

Installation/Replacement of the Remote Control Battery

Remove the cover on the rear of the remote by removing the screw and sliding the back plate upward slightly – install a 3V [CR2032] disk type battery as illustrated.

Installation of Optional Wall Mount Holder

Attach the remote holder using the screws provided (use wall anchors for hollow dry wall), or peel the foil off the adhesive pad on the back of the remote holder and press it into place on any clean flat surface.

CUSTOMER SERVICE: 1-800-264-1190

General Safety Instructions for Motorized Shades

- Do not expose the motor or transmitter to moisture or extreme temperatures
- Do not allow children to play with this device
- Use or modification outside the scope of this instruction manual will void the warranty
- If cable or power connector is damaged, do not use
- Keep the antenna straight and clear from metal objects

Statement Regarding FCC Compliance

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1) This device may not cause interference, and
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Note

This equipment has been tested and found to comply with 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

Motor&Controlsfor **Custom**Roman Shades

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

Cleaning

To clean the shade fabric, use a feather duster or vacuum lightly using the soft brush or upholstery attachment. For spot cleaning, use warm (not hot!) water with a mild soap to damp clean.

REPLACEMENT PARTS

In the event that replacement parts are ever needed, you may call: 1-800-264-1190

Please be sure to provide the following information, if possible:

- The complete model or catalog number of your product
- A description of the product
- A description of the part needed

A WARNING

THIS PRODUCT HAS BEEN ENGINEERED AND MANUFACTURED TO MEET THE SAFETY STANDARDS ESTABLISHED BY THE WINDOW **COVERING SAFETY COUNCIL.**

This product is designed to make your shade safer for children and pets. However, this shade is substantially different than the traditional shades that you might be accustomed to.

The cording system on the back of the shade is designed to help minimize the possibility of a child or pet becoming entangled in the cords.
